

STARR MINISTRIES

REPORT FROM THE ROAD

October-December, 2013

ISSUE # 2

[top pic] We started our itinerant ministry with Pastor Dave Dunbar at Freedom Baptist Ch. in Auburn NY. [bottom pic] Pastor & Mrs. Aaron Samples of Grace Baptist Ch., Urbana OH where we held our first 4-day revival. Both pastors are leaders with vision for their churches.

BIG PHAE

We've learned that on cold nights, it's best to lock the windows & close ceiling vents if you want to be warm. The electric heat pump is only good down to 37-40 degrees. Then, you have to switch to the propane furnace. I'm using muscles I forgot I had to scrub the big front window after every drive and bend over to get things out of the basement bays. Pray for my forced exercise program. Seriously, I love it!

God has blessed us with 47 meetings. In the first five, we saw two come to receive Christ in Sunday morning services and folks at the altar in every service. Randy spoke 17 times in those first 18 days and 22 times through October. Shirley has spoken to women in three churches. We've played our horns in every church.

What a delight to fellowship with each pastor and his wife! We have marveled at the packed altars in response to the preached Word, such as...

- The young married man who got up from the altar and told me he was ashamed but he had backslidden to where his wife had to drag him to service. He said she won't have to again!
- The elementary school girl who looked up with a satisfied smile and handed me her 2"x4" paper of notes on my message.
- The man who talked to me after the altar service to tell me with tears that God dealt with him about all 4 points in the sermon.
- The woman who said she came forward to receive Jesus.
- The young man who came forward to quit putting off his decision to receive Jesus.
- The couple who got up from the altar holding hands with tears in their eyes as if to say, "We're going to make it with God!"

Add to that...

- The campground owner that Shirley witnessed to and then sent a thank you note with a tract.
- The lady who bought *Grace Through Grief* for a friend facing sorrow. That's all in five weeks on the road.!

If you support us, this is all fruit to YOUR account, too. Thank you.

Lucy on the Road

Lucy thought she had the RV living licked now. Big Phae was quiet and serene. While setting up camp, as the back bedroom slide was going out, a closet door popped open, and a can of 7-up rolled out on the floor. It got caught behind the end of the slide and as the slide kept going back, it continued to squeeze the can of 7-up just like a lemon! The only problem was: more juice than a lemon came out all over the carpeted floor! Lucy was so flustered that it took her a minute to quit putting the slide out. By that time, the damage was done. Why oh why can't the Lucy's lead a normal life?
