Independent, Fundamental, Baptist – Evangelizing, Edifying, Equipping

JULY-AUGUST, 2014

“...and give Him the glory, great things He hath done.”

Sylvia Rodrigues (2nd from left) – a new convert!

After driving 2,000 miles to IN, we attended the Fairhaven Preaching Conference. I also enjoyed teaching a block college class on Pauline Epistles at Fairhaven. We proceeded to have meetings throughout the Midwest with Pastors James Lewis, Don Williams, Courtney Lewis, J. Arnold Fair, Bob Koenig, Steve Damron, and Jerry Ross.

Oh Those Back Roads!

While travelling to a mid-week service in Indiana, we had the trusty old GPS and also a printed page of directions. As everyone knows, the GPS cannot always be thoroughly trusted. We turned off the main highway onto a back road which looked more like a cowpath. Eventually the gps said, “You have reached your destination on your right.” “Oh, right!” we thought. We were supposed to be at Blessed Hope Baptist Church, but there was no church in sight!

We called our son-in-law to verify directions. While on the phone, the pastor of the church also called. We figured out we were right in front of his house – a dirt path narrow road. Laughingly, the pastor came out and told us we had the directions to his house instead of the directions to his church! We all had a good laugh! However, knowing what a man of excellence this pastor is, we had just washed our jeep, so it looked spanking new! By the time we arrived at the church, the forest green jeep was totally white! Oh, will Murphy’s Law never end! God keeps us humble!!

Moral of the Story – Pride goeth before a fall! Is it wrong to want a clean car for a couple of days???

“Go West, Big Phae and Little J.”

Days are filled with study, prayer, emails, calling pastors for meetings, sending confirmation letters, finding the next campground online, and doing maintenance on the vehicles. Yes, I have a monthly chart of everything that has to be done on both vehicles inside and out. Shirley and I each have our chores.

The new digital readout on tank levels really helps. The original system never read correctly and often said we had a full tank of grey, black, fresh water, or LP when they were empty (or vice versa).

95% of all blowouts are caused by air loss without you knowing it is happening. We have installed a tire-monitoring system that reads the pressure and temperature of each tire and notifies us when there’s a problem by an alarm and red light. Safety first!

Big Rigs sway when they face crosswinds or semis pass them. We had a steer safe system installed to pull it back to center.

We keep learning how to live in Big Phae.

Family Blessings! Grandchildren fixes in Indiana.

PRAISE REPORTS:

- ⇒ Praise God for fruit in the meetings.
- ⇒ Praise God for blessings and support from Mt. Zion Baptist Church, Hunt Valley Baptist Church, and Fairhaven Baptist Church.
- ⇒ Praise God for Darrel, Perry, Dean, Joe, & Mike who worked on Big Phae to keep us motoring down the road.

PRAYER REQUESTS:

- ◇ God’s power in the meetings and souls.
- ◇ Time to write.
- ◇ Provision for recent sporadic expenses: tires and tire monitor, steer safe system, insurance.
- ◇ Churches to partner with us for much-needed monthly support.
